

## Letters to a Young Criminologist

Jeffrey Ian Ross

Building on nearly three dozen books using a similar format, *Letters to a Young Criminologist*, provides a long overdue, valuable, and engaging analysis and advice for individuals considering a career as an academic criminologist. While the book is primarily directed at undergraduate and graduate students and early-career academics in this increasingly popular academic field/discipline, its insights are equally relevant to criminal justice practitioners and professionals, including people contemplating or currently working in law enforcement, corrections, probation, or parole as officers, court personnel, and criminal lawyers.
